Improvement Throughout the List.

MONEY, STOCKS AND GRAIN

Owing to the Better Bank Statement.

The New York Market Was Also Strengthened by the Arrivals of Gold-Indianapolis Cereals Tending Higher.

THE BOND MARKET.

Railway and Other Issues Were Active and Strong on Sales of \$914,000. At New York, Saturday, money on call was nominally 3 per cent.

Prime mercantile paper, 8@12 per cent. Sterling exchange was firmer, with actnal business in bankers' bills at \$4.81 40 4.824 for sixty days, and \$4.864 @4.87 for demand.

In silver certificates there was nothing doing at 73c bid and 74c asked. Bar silver closed at 78c per ounce; Mexican dollars at 58 2c. At London bar silver closed at 34d. It was a day of improvement at the New York Stock Exchange Saturday, quite a number of the prominent issues, such as New York Central, Lake Shore, Erie, Sugar, St. Paul, Burlington & Quincy, Rock Island, Canada Southern, Northwest, Manhattan, New England, North Pacommon and preferred, Reading. Pullman Palace, Union Pacitic and Wabash preferred selling at the highest point of the week. At the top notch the stocks named showed gains for the week of 2@5 per cent. The main cause for the advance was the general belief that the bank statement would be orable. The expected happened. The banks added \$5,308,125 to their reserve, but are still \$6,707,675 below the 25 per cent, required by law. The exhibit was even more favorable than it looked, as the banks gained \$5,354,500 in cash and \$177,500 in deposits; loans contracted \$2,432,800, while circulation increased \$1,042,000, making the total increase this month \$2,644,000. In a general way the market was strengthened by the recent arrivals of gold and a conviction that the Sherman silver bill will be repealed. The rise induced some selling to realize profits, but at the close the list was strong and firm. The net gains for the day ranged from 1/2 to 21/2 per cent. The total sales of listed and unlisted stocks were 79,926 shares.

Railway and miscellaneous bonds were active and strong. The sales were \$914,000. Atlanta & Pacific fours rose 14, to 50; Chicago Gas firsts 1, to 74; Erie consol seconds 1, to 67; Reading fours 1, to 63, Reading firsts 1, to 254; Reading seconds 14, to 18; Pittsburg & Western fours fell 3, to 72. Northern Pacific consol fives, after advancing 1 to 31, fell to 294. Louisville, Evansville & St. Louis consol fives were at 40 bid, against 70 the last transaction. Government bonds were steady. State bonds were dull. Closing quotations were:

More Favorable Bank Statement and Prospect of No Increase in the Visible Supply Were Enough to Cause an Advance.

TRADING AT CHICAGO.

Corn and Oats Both Declined at the Opening, with Provisions Firm. CHICAGO, Aug. 26.—The premium for carrying wheat is fast narrowing down to normal dimensions. The spread between September and December which two or three days ago was 8c per bushel, parrowed to 640 to-day. The carriers had orders in at the opening to take September and sell December at 70 difference. One big house accommodated them with 250,000 bushels in a lump and others were found ready to sell the September and take the December. However, the buying of September and selling of December predominated. The public cable quoted wheat futures firm and 4@4d higher. The commercial agencies in their weekly reviews of trade dicated improved conditions, with \$35,-000,00 in gold already imported in a few weeks and more coming. Bradstreet's gave the exports of wheat and flour for the week at nearly five million bushels. This was better than was expected. The estimate was for only half a million increase in the visible for Monday, and the exports caused some to predict that there will be no increase. On the top of all this came the New York bank statement, with an in-

loaded up on the advance turned to take profits the last hour. The market weakened as quickly as it got before the close. No sales of cash wheat for shipment were reported. The opening was 18@4c higher for September and December, then eased off 4@%c for former and 1/20 for latter delivery, became firm and prices were advanced 1@1%c for September and 40% o for December, eased off again %0 %c, held steady, and the closing

crease of over \$5,300,000 in reserves and

otherwise favorable. This gave the mar-

kat its best bulge. The local trade having

the same for December as the closing figures of yesterday. Corn was quiet and, on the whole, averaged better than yesterday, shorts being more disposed to take profits, the action of wheat having a stimulating influence. The market opened at yesterday's final figures, was steady, and soon afterwards advanced &c, eased off & @ &c, ruled steady. and at the close had lost 4 @ sc.

was about 30 higher for September, and

There was 4 @ sc decline in oats in sympathy with corn and a rally of 40 40 later on fair buying. Fair selling was indulged in when the estimates of 415 cars for Monday came ont, but prices were not materially affected and the close was steady, about the same shade over yesterday's prices.

Provisions were very firm. The advance

in the price of ribs yesterday did not have the effect of putting up the cash demand and consequently they were given another. Business was not heavy, but the price kept advancing at every bid, as no one seemed disposed to sell, more especially for September delivery. Pork being considered relatively cheaper than other meats, was wanted by packers, who are said to be getting a good profit out of them by cutting it into strips. Some more of the shorts in September ribs were forced to come in on the buige. Pork advanced to \$13.95, and closed at an advance of 60c on yesterday's closing rate. Septemher lard gained .024c and October .10c. September ribs are .271/20 higher, but the advance in October is only .05c.

There was a fair demand for vessel room and rates steady at 1 20 asked for wheat and 140 for corn to Buffalo. Estimated receipts for Monday are: Wheat, 82 cars; corn, 700; oats, 415; hogs, 27,000. The lead-

[From the Second Edition of the Sunday Journal. Labor Riot at Chicago.

CHICAGO, Aug. 26 .- A short but bloody riot occurred on Washington street, in front of the City Hall, at 8 o'clock this afternoon. Police officers and parading unemployed men came together, and clubs and rocks were used with serious effect. The injured are:

Policemen-Inspector Alex. Ross, cut severely on the head and bruised about the body; Sergeant James M. Swift, out on forehead, left hir badly bruised; patrolman James Larkin, battered on the head from a blow with a club. Rioters-Michael Horoviez, cut on the head; John Wenzel, cut on the head.

At 2 o'clock this afternoon hundreds of unemployed men gathered at the Lake Front Park to listen to addresses relative to the labor situation. At the close of the speech making they formed for a parade. Preseded by a brass band, they marched up Washington street from Michigan avenue. They were formed in platoons reaching across the street from curb to curb. This style of marching completely blocked the progress of street cars and vehicles, and the corner of Washington and Clark streets the leader of the parade ordered the men to march by fours. In the confusion of assuming this form there was a general mix-up. The result was a halt which further complicated matters. A United States mail wagon stood at the corner of Washington and Clark streets. The driver was anxious to reach a railroad train, but he could not get through the crowd. Word was sent to Inspector Ross, who was in his office in the City Hall. The inspector walked over to the corner of Clark street, and calling a couple of policemen to him ordered them to clear a passageway for the mail wagen. This was done amid angry shouts and threats from the crowd, some members of

which were decidedly ugly. Near the sidewalk stood the buggy of J. H. Martindale, who had driven as close as | between Elijah A. Morse, member of Conpossible to the curb in order to allow the gress from Massachusetts, and Judge etable Compound spread out again and were filling the street | Pensions. Mr. Morse has informed Comfrom ourb to curb. The crowd directed | missioner Locaren that he expected him Martindale to "get out of the way." to which he replied: "I only wish I could."

In an instant the crowd seized the buggy and threw it upon the sidewalk with a crash. Inspector Ross, followed by his three men, rushed into the crowd and or

The market the place came running back, made a rush with a capacity for willful and malignant for the officers and the fight began. Ross. lying and afflicted further with a develop-

who is a powerful man, knocked down several men in quick succession, and his men stood by him pluckily.

The crowd was too strong for them, however, and when Sergeant Swift went down with a broken head inspector Ross drew his revolver and by threatening the crewd managed to hold them at bay for an instant.

Inspector Shea hurried from the City

Hall at the head of a dozen men and

charged upon the crowd, and Chief of Police Brennan, followed by his private secretary, came running from his office, where he had been reading a legal opinion on the rights of crowds to parade the streets, and began operations by knocking down two men. The police by this time had got the better of the mob and had forced it back after a lively struggle, in which clubs, stones and revolver handles were freely used on both sides. A few minutes later inspector Lewis came from the West Side at the head of seventy men, and getting his orders from Chief Brennan, bore down on the crowd with little ceremony. Patrol wagons loaded with officers came tearing up, and in twenty minutes after the fight began two hundred policemen were on the ground. The crowd, which numbered several thousand by this time, was dispersed

without much trouble. At the time the trouble broke out Mayor Harrison was in a barber shop near at hand getting his gray locks clipped. The barber had just put on the finishing touches when word came that there was a riot in front of the City Hall. The Mayor was out of the chair in an instant. The barber will wait until another day for the price of a bair out. His Honor was on the street in another instant, he burried to the City Hall, and meeting Chief Brennan, who was just returned from the fight, he said:

"Brennan, I want no more parades," said the Mayor, as they came out. "Not at any time!" asked the chief. "Not at any time. And watch these meetings. Keep your officers on the lake

up any meeting that may become disordely. This, the Mayor says, he will stand to, and there will be no more parades of "unemployed" workingmen allowed. The erowd to-day included many toughs, and the police say was composed of different material from that which formed the parades of the three preceding days.

front and allow no disturbances. Break

Story of Love and Crime CHICAGO, Aug. 26 .- In a bill for divorce Bella H. Hassett against Wm. E. Hassett,

of this city, some most astounding charges are made. It is alleged and the allegations are supported by written evidence that Hassett conspired with the wife of a wealthy farmer named Stone, now living near Nashua, la., to murder Stone, get a divorce from his own wife and then marry the widow of Stone, who, by the letters attached, was more than ready to put her own husband out of the way that she might marry Hassett. Mrs. Hassett is well known in the better circles of Cincinnati, where she taught school for several years. Her maiden name

was Bella Cynthia Hicks, and her widowed mother yet resides in Cincinnati. Hassett comes from a wealthy family in Jefferson, Ia. His father was engaged in the hardware business in that place for a dozen or more years, and prior to his death, a short time ago, had accumulated a fortune which will benefit Hassett, is said, to the extent of \$50,-000 or \$75,000. He was married to Miss Hicks, in Hamilton, O., on June 24, 1891. About one year ago, while Hassett was traveling through lows, he became acquainted with Mrs. Nellie Stone, who was living with her husband, a wealthy farmer in Nashua. The woman, the bill alleges, became enamored of Hasset and, it is charged, made a proposition to make away with her husband, who was past middle age and an invalid. What the initial developments of the alleged conspiracy to murder farmer Stone were have not been made known. While all this was going on Mrs. Hassett remained at her home. The alleged plot, as evidenced by the data attached to the bill, was to bring Stone to Chicago on a trip to the world's fair, and then place a quantity of poison in the medicine he was taking. The couple hoped to shield themselves, it is said, from the law by giving out that the death of Mrs. Stone's husband was from natural causes. Mrs. Hassett became aware of the so-called intrigue through an accident, Not long ago her husband came home in an intoxicated condition, and a quarrel arose, resulting in the defendant telling his wife that he had a woman living in Iowa who loved him more than she, and if she did not believe it she would find a number of letters in his trunk which would prove it. Mrs. Hassett was quick to act on the information given her, and while her husband was away from home she opened his trunk and found the letters. She was horrifled at their contents and immediately placed the matter in the hands of her attorneys, who prepared the

Attendance at the World's Fair. CHICAGO, Aug. 26.—During the first six days of the present week the paid attendance at the fair has been 839,756, and if the bureau or admissions has correctly estimated the attendance for to-day, the total for the week will be over 1,000,000. The official count at 2 o'clock this afternoon showed that 139,806 people had pushed their way through the pay gates. The officials in charge of the bureau of admissions said that the total for the day would reach 165,000. Should this prove correct the total for the week will reach 1,000,000. The programme for the day was one of interesting fun, such as never fails to draw good crowds. The fireworks programme at night was a good one and added many thousands to the throngs of the day. Last Saturday 168,861 visitors paid their way into the grounds. The crowd today looked larger. It came earlier and was prepared to stay longer. The weather during the early part of the day was ex-tremely pleasant. Illipois was of course the greatest factor in the week's big attendance. A great many of the 246,951 people who came to the grounds that day stayed, of course, for subsequent visits. The cheap excursion rates offered by the railroads had the effect of bringing more people to the city to see the fair than were ever here before for the purpose. Following are the official figures for the paid admissions to the fair:

bill for a divorce.

May (month)...... 1,050,037 June (month)...... 2,675,118 uly (month)..... 2,760,263 August (first week)..... August (second week) August (third week) Aug. 13..... Aug. 24.....

Two Trains Telescoped. BREWSTERS, N. Y., Aug. 26.-A terrible accident occurred this noon on the Harlem railroad, near Dykeman's station, just north of here, which cost four lives, and possibly more. It was the result of a headon collision between the north-bound enpress train No. 13, which left Forty-secondstreet station, New York, at 10:89 A. M., and the Pawing accommodation train No. 20, which left that place at 12:30 this afternoon. For some reason that will probably never be known, the accommodation did not wait the coming of the express on a sidetrack near Dykeman's station, the Harlem road having but one track above White Plains. The express dashed on at a speed of fifty miles an hour. When the accommodation train was sighted "down brakes" was whistled, but too late. The two locomotives came together with terrific force, completely wrecking them

car on the south-bound train. The killed DANIEL PONETIER, engineer of Train 20. WILLIAM ELLIOTT, engineer of Train 13. WILLIAM BEST, fireman of Train 13. NELLIE REID, aged nineteen, of this place.

both and also wrecking the first passenger

Morse and Lochren at War. WASHINGTON, Aug. 26 .- There is trouble parade to pass him. The marchers had | Lochren, of Minnesota, Commissioner of

PRICE IS ON ALL CANS, TO BE GENUINE.

ment of "sordid meanness," which impele him to violate a law of Congress by wrongfully using a government penalty envelope to convey a "silly libel," and thereby "swindle his government out of the sum of cents." The Commissioner alleges that Mr. Morse used a penalty envelope for sending a private letter to a constituent in which he said that the confederates are on top in the Pensich Bureau, and revoking ten pensions to every one they grant, hence the Commissioner's sharp reply.

Damage Suit Against Arthur Withdrawn. Tolkbo, O., Aug. 26,-The famous person. al damage suit against P. M. Arthur, chief of the Brotherhood of Locomotive Engin-eers, commenced last March immediately after the strike of engineers on the Ann Arbor railroad, has been setterms public will probably never know. The suit was simply withdrawn, and the attorneys for both sides, as well as the officials of the railroad company, are silent as to the terms. The suit was directed personally against Mr. Arthur and F. P. Sargent, the latter the head of the Brotherhood of Locomotive Firemen. At the June term of the federal court the suit against Sargent was dropped. Mr. Arthur was charged with conspiracy in ordering a beycott of Ann Arbor freight on that road and the court was asked to award plaintiff the sum of \$300,000. The settlement of the suit does not do away with the possibility of a final opinion on the important question as to whether or not a brotherhood or union is in itself a common conspiracy against the law. .

Pat Murray Knocked Out. PENDLETON, Ind., Aug. 26 .- Jack Conley, champion middle-weight pugilist of the State, scored another victory over Pas Murray, of Detroit, in a four-round contest at this place to-night. The fight took place in a field about one mile north of town and was spirited from start to finish. In the first round Jack landed several vicious blows. The and third rounds were characterized by heavy in-fighting, Conley gaining first knock down in the latter. Immediately after time was called for the opening of the fourth Murray made a rush at Conley, which was stopped by a left-handed jab in the neck that sent the former to the ground. Murray was unable to arise until assisted by his seconds after he had been counted out. The fight was witnessed by about 150 local sports. Conley, the victor, was awarded the purse of \$100, and gate receipts amounting to \$50

No Street Cars on Sunday. TORONTO, Ont., Aug. 26.-To-day the citizens of Toronto voted on the question of running street railway cars on Sunday. The vote resulted in the defeat of the proposition to run cars by a majority of over 1,000. Of the seven daily newspapers published here but one advocated running cars on Sunday.

Peffer Was "Worked."

New York Evening Post. Senator Pefter's attempt to demonstrate in the Senate yesterday that there is \$1.20 of "fiat in every ten-dollar gold piece would be hardly worth noticing were it not that he claims to speak for a million and a half of voters whose minds work just like his own, and that there may be datiger of Senator Hill's taking up this idea of his new leader unless warned in time. It is only necessary to say that Peffer's bar of gold, of the "same weight and purity" as a ten dollar gold piece, but which was worth only \$8.80, was a "saited" bar. Some Eastern sharper has been working the "goldbrick swindle" upon the simple-hearted child of the prairies. If he knew the coinage laws of the United States he would

Those Scifish Chicagoans,

to make a ten-dollar coin.

New York Weekly. Mrs. Muggins-How did you enjoy your visit at the world's fair! Mrs. Puggins - The fair was good enough, but I don't think they had any business to charge extry for the gondolas. and side-shows, and things. Seems to me the price of admission was enough to cover it all, and give a free lunch besides, but it didn't. I never saw such selfish money-saving creatures as them Chicago people. The worst of the troubles, though, came at night. That was awful! We were packed four in a room sometimes; and one night the children had to sleep on the sofas. never felt so annoyed in my life.

"Were you at a hotel?" "No, we was visitin' relatives, and other relatives kept comin'.

Agriculturists.

"Well, he has had hay fever."

Washington Star. "I notice that that Congressmen talks a good deal about the farmer in his speeches. "Does he know much about agriculture?"

In view of what Hood's Sarsaparille has done for others, is it not reasonable to be-lieve that it will also be of benefit to you?

Woman's Influence

Delicate women may exert much influence, but little in camparison with what it would be with abundant health. The wife wants health that

she may be the companion of her husband and her family. Beware of dizziness, sudden

faintness, irritability, backache, nervousness, extreme lassitude, depression, exhaustion, excitability, and sick headache.

These are sure indications of female weakness, some derangement of the uterus or womb; they are danger signals, which warn you to avoid a life of misery. Lydia E. Pinkham's Veg-
